3PL PROVIDER**

Transportation of products and equipment for the woodworking and pulp and paper industry

The AsstrA Wood and Paper Logistics Division was created to provide comprehensive services to Customers in the woodworking, pulp, and paper industry.

Each of our Customers receives customized logistics solutions tailored to the specific characteristics of the industry.

For 20 years, Customers from the woodworking, pulp, and paper industry have been relying on the AsstrA corporate group. Our team of experts takes into account the unique needs of each client and suggests multiple transportation scheme options. Our Customers can then select a suitable logistics solution that meets their timing and financial requirements.
